

Civil Air Patrol

807th Braden Composite Squadron

Braden Airpark, Easton PA

1 Jan 2020

MEMORANDUM FOR ALL 807th BRADEN COMPOSITE SQUADRON MEMBERS FROM: COMMANDER,
807TH BRADEN COMPOSITE SQUADRON SUBJECT: Commander's Safety Policy

Reference: CAPR 160-1, "Civil Air Patrol Safety Program" CAPR 160-2, "Safety Reporting and Review" PA
Wing Supplement , 62-2 "Mishap Reporting and Review"

1. Compliance with this policy is mandatory. All members of THE 807TH are responsible for creating and maintaining a culture of safety in everything we do. Safety meetings, reports, pilot briefings, required staff training (RST), RM, are not only examples of required safety elements but also examples of opportunities to create continuous awareness of the dangers around us which are inherent to our work. Only with this constant vigilance to awareness can we mitigate the risk of harm to our people and our assets. It is everyone's responsibility to be aware of and communicate any issue or possibility of harm. Every member will utilize foresight, common sense and vigilance to stay "ahead of the danger game" to foster a culture that will not put our members or our assets in harm's way.

2. All members of the 807TH will be aware of and familiar with CAPR 160-1, CAPR 160-2 and the NER and PAWG supplements to each. This awareness will be achieved through level 1 training, safety training, and publication of regulations to members in the unit.

3. No member will enter into any activity without an assessment to safety, or enter into any operation that threatens the safety of any person or property or that is a violation of Civil Air Patrol regulations.

4. Officers at every level will comply with all meeting and reporting requirements. Failure to do so will put your squadron at risk of suspension or closure.

5. All 807th members are required to maintain safety compliance. This is accomplished by engaging in at least 15 minutes of thought and/or discussion of any of the many safety related topics every month.

6. Every member must complete introduction to safety and be safety compliant to participate in ANY CAP Activity!

Joseph Knapp, Captain, CAP, Squadron Commander, 807th Braden Composite Squadron.
